SD SERIES  
SHORT D PLATE

HD SERIES  
SHORT D PLATE

The Short D Plate is made of brass or 316 stainless steel and fastened to the back of a single cylinder Type D interlock to allow front mounting. The thickness of the Short D plate is 3/8".

### SHORT D PLATE DRAWING

NOTES:  
1) 3/8"-16 tapped holes for mounting (4 holes).

# LONG D ADAPTER PLATE

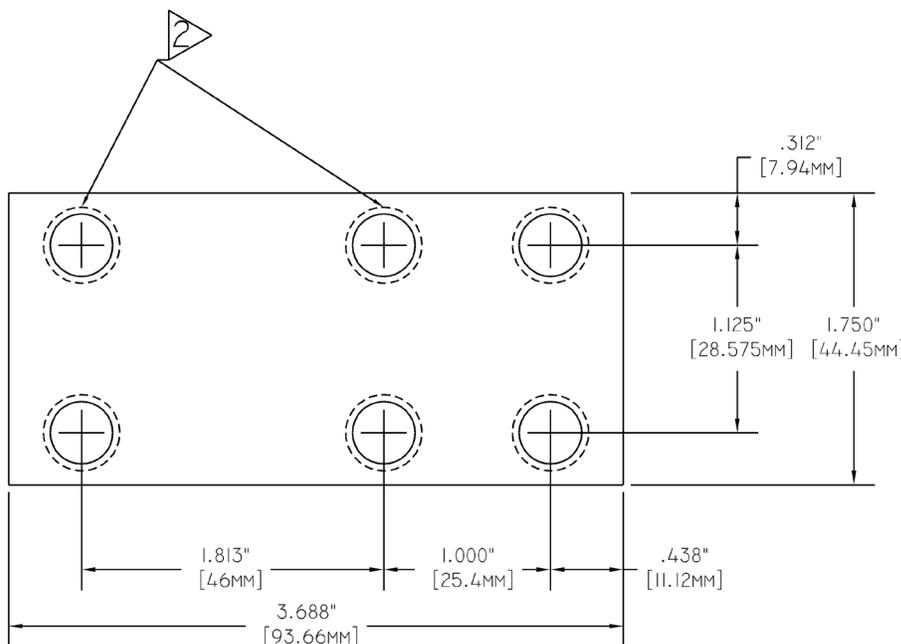

SD SERIES  
LONG D PLATE

HD SERIES  
LONG D PLATE

The Long D Plate is made of brass or 316 stainless steel and fastened to the back of a multi-cylinder Type D interlock to allow front mounting. The thickness of the Long D Plate is 3/8".

## LONG D PLATE DRAWING

NOTES:  
2) 3/8"-16 tapped holes for mounting (6 holes).

# FN ADAPTER PLATE

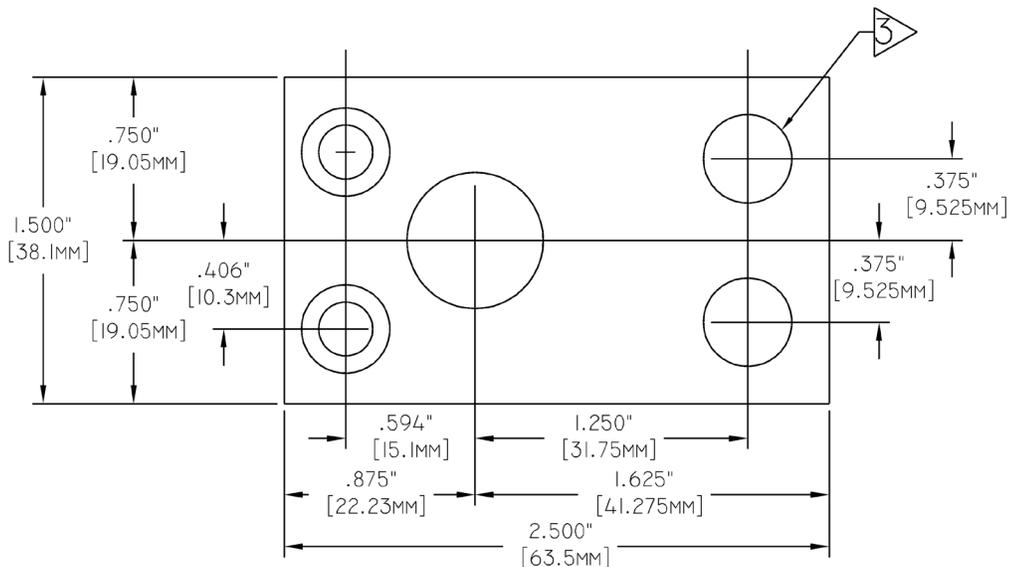

SD SERIES  
FN PLATE

HD SERIES  
FN PLATE

The FN Plate is made of brass or 316 stainless steel and fastened to the end of a Type FN interlock to allow alternative mounting scenarios. The thickness of the FN Plate is 1/4".

## FN PLATE DRAWING

### NOTES:

- .406" (10.32mm) dia. holes for mounting bolts (2 holes).
- When ordering the FN Plate, consider adding 1/4" to the Type FN locking bolt length to compensate for the thickness of the FN Plate.
